

**Stock Trading Using Planetary Time Cycles**  
**The Gann Method Volume II**  
**By**  
**Michael S. Jenkins**

Volume II is finally finished and ready to go out. The cost is \$400.00 and it will *only be sold* to previous buyers of Volume I since *you will need those computer programs* to follow along with the teaching and you will need to understand the basics of astro cycles explained in that 1st Volume. Volume II advances the concepts in volume I and explains many more subjects like Declinations and Latitudes, Elongations, Retrogrades and Direct stations and their secret power points, IPO date and origin points for cycle investigations, the key pairs of planets to use, the numerology of degrees and angle pairs and their translation into prices, planetary angles and square outs, and Square of Nine manipulations along with intra-day methods, just to mention a few of the topics covered. While many of these subjects were touched upon in volume I, you will now see the 'secret tweaks' to these methods that allow you in only 30 seconds of time to make one calculation on any chart and get a virtually guaranteed major turn, often the high or low for the entire year and usually to the day. I show a good half dozen of these proprietary secrets, many of which are not even revealed in my private seminars. Most of you will only need just one of these to trade very successfully for the entire year but in an effort to explain completely and exactly what is the cause of market movements and highs and lows, I include all of them. I do not believe there is anything else needed to be explained except for very minor adjustments and trading strategy. I honestly believe this to be the finest written material I have ever put out and seriously doubt any of my competitors even know these things exist. You will get your monies worth at \$400.00 and orders can go to my Paypal address of

mjenkins@stockcyclesforecast.com.

Checks can be mailed to:  
Stock Cycles Forecast,  
PO Box 652 Cathedral STA PO,  
New York, N.Y. 10025-9998

Proof of prior purchase of Volume I is required or just send me the approximate date of your prior PayPal or check and I can look it up.

If you did not buy Volume I and would like to buy the set of both Volume I and II *at the same purchase time* I will sell both for \$700. You can buy Volume I alone for \$425 with all the computer programs.

On the following pages are a few charts from Volume II with only the 'answers' marked and these are NOT simple square of nine movements or longitudes of 30, 45 60, degrees etc. movements, but key secret manipulations that are unique to each stock or market.

LNKD - Daily NYSE L=265.01 -3.33 -1.24% B=265.01 A=265.59 O=267.77 H=271.95 Lo=263.76 V=1.595,936

### US Steel

These above arrow markers are the results of usually ONE comprehensive calculation that almost always gives results just like these and you know often years in advance when they take place. They are based on principles that are virtually guaranteed to produce similar results since they come from the core secret of all cyclic behavior. You only need to develop a strategy to buy or sell with a stop near these dates and 99% of the work is done for you!

Volume II is similar to Volume I in size and will come as a notebook like Volume I.
